

Framework: Adjusting and Tightening Public Health Measures

Act earlier by implementing measures to protect public health and prevent closures

Gradually loosen measures as trends in public health indicators improve

Objective	 PREVENT (Standard Measures)	 PROTECT (Strengthened Measures)	 RESTRICT (Intermediate Measures)	 CONTROL (Stringent Measures)	 LOCKDOWN (Maximum Measures)
Focus on education and awareness of public health and workplace safety measures in place.	Enhanced targeted enforcement, fines, and enhanced education to limit further transmission.	Implement enhanced measures, restrictions, and enforcement avoiding any closures.	Implement broader-scale measures and restrictions, across multiple sectors, to control transmission (Return to modified Stage 2).	Implement widescale measures and restrictions, including closures, to halt or interrupt transmission (Return to modified Stage 1 or pre-Stage 1).	
Restrictions reflect broadest allowance of activities in Stage 3 absent a widely available vaccine or treatment.	Apply public health measures in high risk settings.		Restrictions are the most severe available before widescale business or organizational closure.	Consider declaration of emergency.	
Highest risk settings remain closed.
